Take-down policy

If you believe that this document breaches copyright please contact us providing details, and we will remove access to the work immediately and investigate your claim.

Downloaded from the University of Groningen/UMCG research database (Pure): <http://www.rug.nl/research/portal>. For technical reasons the number of authors shown on this cover page is limited to 10 maximum.

Samta Jain, born on 15th January, 1979 in Ladnun (Rajasthan), India

Education and Research

Post-doctorate in the Department of Molecular Microbiology at the University of Groningen, The Netherlands. (Mar 2011 onwards)
Research field: Ether-lipid membrane engineering of *E. coli* for robustness.

Post-doctorate in the Department of Ecophysiology at the Max-Planck-Institute for terrestrial Microbiology, Germany. (Mar 2010 – 2011)
Research field: Outer membrane structural characterization of the Type IV pili system of pathogenic *Neisseria*.

PhD in the Department of Molecular Microbiology at the University of Groningen, The Netherlands. (Dec 2005-Feb 2010)
Research field: DNA uptake and release systems of *N. gonorrhoeae*

Project assistant in the Department of Biochemistry at the Indian Institute of Science, Bangalore, India (Oct 2003-Apr 2005)
Research field: Applied Proteomics

Masters in Biotechnology, Bangalore University, India. (2000- 2002)

Bachelor of Science, Jyoti Nivas College, Bangalore University, India. (1997- 2000)
